

OMS Tech Committee Meeting
4/15/08

Present: Dan Myers, Don Johnson, Tom Hackenmiller, Julee Accardo, Bill Eagle, Terry Anderberg

1. **Data Review:** Reviewed results of the Staff and Student tech surveys. Compared with last year's results and noted areas of change. Difficult to determine if 10% growth was made as per our Tech Plan Goals. Bill will check with Ron to see if there is a way to identify this.

2. **Revise/Edit 2008-09 Tech Plan:** Reviewed current Tech Plan, as well as the Tech Plans from both Foothills and Pioneer. Discussed items that have been met and can be removed from our plan as well as things to add. Bill will edit and send copies to Tech Committee for review prior to next meeting. Agreed that finding time to work with staff is difficult but needs to become a priority. Also agreed to continue setting aside monies to pay for Paul Appel's time to come in before school starts in August to assist with getting things set up.

3. **Updated on District Tech Plan:** Ron was going to be present to discuss district support of replacement of laptop batteries and policies/procedures for accommodation of staff who have different needs beyond the portability of a laptop. Since Ron was not able to make it, Bill has requested Ron email this information so we may have it prior to our next meeting.

4. **Next meeting** – May 13, 2008.
